LIQUOR STORE DENSITY

A liquor store is a business primarily engaged in retailing packaged alcoholic beverages, such as beer, wine, and spirits. Studies have shown that neighborhoods with a high density of alcohol outlets are associated with higher rates of violence, regardless of other factors such as poverty and age of residents. High alcohol outlet density has been shown to be related to increased rates of drinking and driving, motor vehicle-related pedestrian injuries, and child abuse and neglect.

Number of Liquor Stores per 100,000 people by Cities

City	Stores
Colma	83.7
Half Moon Bay	60
Burlingame	44.4
Brisbane	35
Millbrae	32.9
