San Mateo County: RESTORATIVE JUSTICE PRACTICES
Strategic Recommendations for Implementation

Successfully implementing Restorative Justice Practices across San Mateo County requires an intentional and thoughtful strategic approach and plan; one that values and considers the unique needs, opportunities, and resources of the community with the goal of embedding and sustaining all aspects of the restorative principles and practices across all county-wide stakeholder groups over time.

**Implementation Readiness:** Prior to launching implementation rollout, taking the time to engage community stakeholders in strategic planning and selecting a model and structure for an implementation rollout that best meets the need of the community. Facilitating needs and implementation readiness assessments, Restorative Justice Practices (RJP) outreach to community stakeholders, introducing components of whole-school implementation and working with the site team to prepare for the launch of RJP school-wide utilizing implementation science and Multiple Tiered Systems Framework.

**Professional Development & Trainings**
All professional development opportunities encompass a multi-modal, experiential training delivery approach that strives to meet the unique learning needs of all participants while offering a careful balance of theory, practice and skill building. Participants will experience a variety of large and small group dialogue, interactive activities and simulation exercises. Training techniques such as role-playing, silent reflections, group brainstorming, scenario application, and cycle of inquiry will be utilized throughout.

**Implementation Support & Sustainability**
**Coaching:** A critical component of successful implementation of Restorative Practices rests with the coaching support and strength of the Restorative Practices Implementation Team or external specialists to help reinforce, support and sustain the implementation across school sites.

**Internal Capacity Building: Trainers of Trainers:** Identifying a core group of individuals for internal capacity building to provide professional development (trainings, workshops and presentations), coaching supports, progress monitoring/data collection and implementation planning at a local level.

**Student Leadership:** Youth leadership is essential to successful of RJP initiatives in schools. It is highly recommended to establish student-led groups or classes at each site, including students in collaborative decision-making, providing students with in-depth training, and offering ample opportunities for students to design and facilitate circles and other RJP activities with their peers.

**Family Engagement:** Family members and guardians play an integral role in the success of RJP implementation rollout. Engaging parents and guardians as important members of the school community early in the implementation process results in the school/district working together with family members to co-create a positive and caring school environment grounded in authentic relationship. It is critical for schools/district to promote and help educate parents in equitable discipline practices and clarify how they can proactively support building a strong school community and partner with the school when disciplinary actions may be required.
**Racial Equity Lens:** A deep commitment to equity is a guiding principle of RJP, which includes an understanding of the ways that racism and other forms of structural inequality underlie disparities in discipline that prevents academic achievement for all students and opens a pathway to the school-to-prison-pipeline. It is critical for RJP initiatives to accompany strategies that promote equity and inclusion, including training in cultural fluency and implicit bias.

**Social and Emotional Learning and Trauma-Informed Practices:** There are multiple points of connection between Social and Emotional Learning, Trauma-Informed and Restorative Justice Practices and it is highly recommended to align and integrate these initiatives into one comprehensive effort to build a strong school community where all members can flourish.

**Assessment and Accountability:** Tracking the ongoing impact of RJP on individual students and the school climate and help identify strengths and areas for improvement. Schools/districts develop systems for regular data analysis and ensure that districts/schools effectively utilize the data to improve the implementation of RJP.

*Developed in collaboration with the Coalition for Restorative Schools, RJP Best Practices working group (2017)*

**Implementation Science**
Implementation Science provides a useful evidence-based framework that allows organizations at any level (State, County, District, Schools) to create an infrastructure to build capacity for innovations to be scaled up and translated into practice.

San Mateo County Restorative Justice Practices  
Multi-Tiered System Framework
Restorative Justice Practices

Tier 1: ALL (Whole School Community)
Universal and Foundational Practices, Interventions, & Processes

Tier 2: Targeted Interventions, Disciplinary Practices
- Relationship Building
  - Circle Practice
  - Inclusive Decision Making
- School-wide and Classroom Values
  - Communication Skill Building / Affective Language
- School-wide Restorative Discipline / Conflict Resolution Approach
  - (Restorative dialogue & problem solving)
- Data Collection

Tier 3: Individualized Intensive Interventions & Disciplinary Responses
- Alternative to Suspensions: Formal Restorative Conferences
- Expulsion Diversion Practices
- School District Re-entry post contact with Juvenile Justice system
- Data Collection

Student Leadership & Family Engagement
Trauma Informed and Sensitive

Racial Equity & Culturally Responsive
Data Informed Decision Making

Relational Approach: Doing "WITH"

**Should we do it?**
### Implementation Infrastructure

- Align RJP with other county-wide initiatives and current rollout strategies
  (Ex: Community Schools, Big Lift, trauma sensitive & racial bias strategies...etc)
- Establish or expand already existing county-wide steering committee
- Establish and hire at minimum two RJP County Trainer/Coordinator positions (school and community)
- Identify current RJP implementation efforts across San Mateo schools and community organizations
- Establish a RJP County Collaborative
- Design strategy for stakeholder engagement
- Collaborate on a set of relational guidelines for county-wide dissemination & implementation

### Professional Development, Implementation, Evaluation Design & Launch

- Establish centralized hub for RJP, training, implementation, evaluation, and oversight for districts, schools & county/community agencies
- Provide individualized district & school strategic planning support (Implementation Science & the Multi-Tiered Systems)
  - *Introduce San Mateo Foster City RJP approach as a model district wide strategy.*

### Stage 2: Installation

- Setting up infrastructure required to successfully implement. Involvement of students, staff and families.
- Training, professional development.
- Development of a core group/team to plan, implement and collect and data.

#### County

<tbody>
<tr>
<td>• Establish district-wide steering committee</td>
<td>• Establish district-wide steering committee</td>
<td>• Establish a school-site steering committee and implementation team representative of school community members</td>
</tr>
<tr>
<td>• Develop clear school climate goals for LCAP to include RJP implementation</td>
<td>• Build district RP Team for implementation oversight, coordination, training, coaching, data collection &amp; reporting.</td>
<td>• Identify a specialized on-site staff support (such as a RJP coordinator or well trained school site staff leader to assist with the training and implementation support)</td>
</tr>
<tr>
<td>• Utilize a Multi-Tiered Systems Framework in alignment with RTI/ PBIS, Trauma sensitive strategies, Social Emotional Learning &amp; other district academic / school climate initiatives</td>
<td>• Utilize a Multi-Tiered Systems Framework in alignment with RTI/ PBIS, Trauma sensitive strategies, Social Emotional Learning &amp; other district academic / school climate initiatives</td>
<td>• Develop an implementation rollout plan utilizing a Multi-Tiered Systems Framework for implementation and training (including proactive and responsive practices)</td>
</tr>
<tr>
<td>• Identify approach and time-line for engaging schools and launching implementation</td>
<td>• Identify approach and time-line for engaging schools and launching implementation</td>
<td>• Introduce RJP in alignment with other current school-wide initiatives and strategies.</td>
</tr>
<tr>
<td>• Determine strategy for student RJP leadership opportunities.</td>
<td>• Determine strategy for student RJP leadership opportunities.</td>
<td>• Consider role of community based partnerships</td>
</tr>
</tbody>
</table>

#### Professional Development, Skill Building Design & Launch

- Establish training and coaching plan for district RP point person, trainers and coaching team.
- Develop and launch Professional Development training plan for:
  - Central office staff, identified district partners, Union leadership
  - School site Administrators
  - Participating school site staff
- *Faculty/Staff (certificated & classified)*
• Create handbook of implementation readiness materials, fidelity tools, and data collection
• Partner with local community organizations that offer RJP services
• Target training to identified key county stakeholder groups with emphasis on building internal capacity for training and application of practice

Establish Systems of Support:
Establish a Community of Practice for county-wide RJP dialogue

Countywide Commitment to a Restorative Discipline Paradigm and Addressing Root Causes of Disciplinary Disproportionality

Collecting Baseline Data
School climate and student risk/outcome data points, including assessment of racial disparities in current discipline practices.

• Integrate restorative principles and processes into day-to-day practices. (ex. Pupil Services and Human Resources departments)

Establish Systems of Support
Systems of support peer coaching model for:
  - Central office staff
  - Participating school staff

District-wide Restorative Discipline Approach & Response
Adopt a district-wide restorative approach towards behavioral incidents (determine necessary stakeholder engagement, training and support systems necessary)

Collecting Baseline Data
Collect baseline district-wide school climate, student risk outcomes and disciplinary racial disparity data points

Collect/Design Implementation Resources, Readiness and Data Collection Tools

  - Students
  - Family
  - Community Partners

Establish Systems of Support
Systems of support peer coaching model for participating school staff and others interested.

Collecting Baseline Data
Collect school-site climate, academic, attendance and discipline disparities baseline data

Collect/Design Implementation Resources:
Books, videos, curriculum, materials to include:
  • School site readiness assessment tools
  • School site implementation commitment forms
  • Implementation fidelity/integrity of practice tools
Let’s do it!

Stage 3: Initial Implementation

- Adoption of practices into all systems.
- Faculty/staff is actively engaged and students and families are knowledgeable of the practices and active participants in the process.
- Clear evidence of implementation is visible.
- Data collection is ongoing.
